

Powering Seamless Microsoft Signature Teams Room Experiences

Great things happen when great companies come together. Microsoft Teams Rooms offer flexibility of purpose and movement that traditional meeting rooms do not. Now, best-in-class companies Crestron, Jupiter and Salamander Designs, have come together to fully support and enhance the Microsoft Teams delivery and experience in revolutionary ways.

World-Class Companies Working for You.

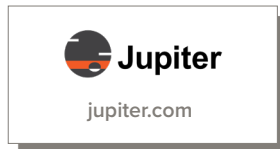

Crestron Flex Small Room Conference System with Jabra® PanaCast 50 Video Bar for Microsoft Teams® Rooms

The UC-B31-T Crestron Flex tabletop conferencing system provides a small room video conference solution for use with Microsoft Teams® Rooms software. It supports single or dual video displays¹ (not included) and features a tabletop touch screen, Jabra® PanaCast 50 video bar, UC bracket assembly, PoE injector, and cables.

Crestron Flex Small Room Conference System (UC-B31-T)

Jupiter is dedicated to engineering and delivering cutting-edge technology that exceeds industry standards and redefines the user experience.

We believe that 21:9 ultra-wide 5K LCD are the future for enterprise and are committed to leading the way in this space. The Pana is fully engineered and designed from the ground up by Jupiter; this allows us to work with market leaders such as Microsoft to create a fully integrated Signature Teams Room display and solution. Jupiter Pana displays are installed at over 50 Fortune 500 companies in over 22 countries (and growing), many in the Microsoft Signature Front Row MTR configuration.

Jupiter Pana's 21:9 ultra-wide 5K (Pana 105")

Our advanced, flexible solutions are carefully designed to support Integrators, Architects, Designers, Facility Managers and everyday users.

All pieces are built to order, manufactured in the USA and backed by a Lifetime Warranty. Customize your own by selecting from our wide variety of styles, materials, sizes and finishes of furniture to support technology, unified communication and maximum user engagement with designer style.
