

IDOC-PAD-DSWC

iPanel™ In-Wall Docking Station for iPad®

- > A stylish in-wall docking station for the iPad®
- > Models available for the original iPad, iPad 2, and the new iPad (3rd generation)^[1]
- > Transforms the iPad into a stationary Crestron® touch screen
- > Designed for seamless integration with our Crestron Mobile Pro® G control app^[2]
- > Provides a convenient iPad charging solution
- > Includes post-construction drywall mounting kit
- > Optional pre-construction mounting kit available separately
- > Powered via Cresnet^[3] or power pack^[2]
- > Available in smooth white or black finishes

The Crestron® iPanel™ In-Wall Docking Station (IDOC-PAD-DSWC) provides a truly elegant wall mount solution for charging your Apple® iPad^[1] while simultaneously using it to control your home, office, or classroom. The iPad slides easily into the iPanel, instantly transforming it into a stationary wall mount Crestron touch screen. With a gentle press, the iPad can be removed just as easily for portable use.

As part of a complete Crestron control solution, an iPad offers a very practical and powerful touch screen controller for home theater, whole-house automation, and commercial AV applications. Our [Crestron Mobile Pro® G Control App](#)^[2] enables any iPad to work with a Crestron control system, offering professional touch screen functionality through a very stylish and highly-customizable graphical interface.

Adding the iPanel affords the advantage of in-wall touch screen operation and battery charging with no messy wires. Its sleek, innovative design achieves a completely flush installation with a thoroughly modern appearance. It can be mounted in a vertical drywall surface using the mounting clips provided. A pre-construction mounting kit ([PMK-IDOC-PAD-DSW](#)^[2]) is also available.

The iPanel comes in a choice of white or black, with multiple configurations available to accommodate the original iPad, the iPad 2, or the new iPad (3rd generation)^[1]. Please note, all iPanel models are designed so that the iPad device is inserted from the right-hand side. For applications requiring insertion from the left-hand side, Crestron offers the [IDOC-PAD-DSW-FPLFT](#) Left-Hand Docking Option.
