

CS-SHADE-ROLLER-BATT

Crestron® Battery Powered Shades

- *Easy installation in post-construction or retrofit applications*
- *3 year (average) battery life*
- *Install shades where power and control cabling cannot be run*
- *Designed for use with Crestron® QMT®3 Series Architectural or QMT3 Series Décor shade hardware*
- *For roller shades 22 to 96 in. (559 to 2,439 mm) wide using Décor shade hardware*
- *For roller shades 24 to 96 in. (610 to 2,439 mm) wide using Architectural shade hardware*
- *Digital Quiet Motor Technology™ provides silent operation and precise positioning*
- *Patented automatic torque calibration technology detects obstructions to prevent damage*
- *Programmable stop points afford customizable scene presets*
- *Real-time remote activity monitoring and status feedback*
- *Local pushbutton interface for setup and testing*
- *Onboard multicolor diagnostic LED*
- *Quick and easy installation*
- *Dependable, brushless motor design provides reliable, long-life operation*
- *Fully integrated antenna— no external antenna or dongle required*
- *Control system integration using SG wireless communications*
- *Powered using 8 D cell batteries in an external battery pack*
- *Limited Lifetime Warranty*

Crestron® battery-powered shades (CS-SHADE-ROLLER-BATT) add beauty, convenience, and comfort to any interior space.¹ Install battery-powered shades in locations where power and control wires cannot be run. A battery pack powers the shade motor while the SG radio provides control and status of the shade.

Long-life Battery Operation

Power is supplied to the QMT® shade motor via 8 D cell batteries² (not supplied). The batteries are stored in an external battery compartment that is mounted in the fascia of QMT3 Series Architectural shade hardware. When mounting with QMT3 Series Décor shade hardware, the battery compartment can be hidden behind the roller shade fabric, valance, or drapes, and can be color-matched to the bracket hardware.

QMT®3 Series Architectural or Décor Mounting Hardware

Designed for use with Crestron® QMT®3 Series Architectural ([CSS-ARCH3](#)) or QMT3 Series Décor ([CSS-DECOR3](#)) mounting hardware.¹ QMT3 series mounting hardware is a compact mounting system that allows a Crestron shade to be mounted on a wall, ceiling, or window jamb.

The CSA-ARCH3 fascia for battery-operated shades includes an integrated battery holder that neatly stores the battery compartment. The battery holder swings open to provide easy access for battery replacement.

Natural and Artificial Daylight Control

Protect fine furnishings and floor coverings from harmful UV rays with intelligent shading solutions. For added energy efficiency, shades can also reduce solar-heat gain in the summer and utilize its warmth in the winter.

Security and Privacy

Shades provide privacy and security. Use semi-translucent shade fabrics to allow natural light into the space, or blackout shade fabric to completely block views.

Quiet Shade Motors

Crestron automated shades feature low-voltage Digital QMT® shade motors for quiet operation. Crestron shades help manage daylight without audible disruptions to the space.

Brushless Motor Technology

The Crestron Digital QMT shade motor is a brushless design, which translates into exceptional reliability, smoother operation, and ultra-quiet performance.

Easy Installation

Crestron shades are easy to install. Brackets are easily mounted, and the shade components are secured with no special tools required.

Crestron Design Tool Shades (CDTS) Software

The [Crestron Design Tool Shades \(CDTS\)](#) is a web-based tool used for quoting and ordering Crestron roller shades and

Available Accessories

For a list of available accessories, visit the [CS-SHADE-ROLLER-BATT](#) product page.

Notes:

1. Battery-powered shade motors cannot be used with roman shades, horizontal sheers, dual-roll brackets, couplers, and pockets.
2. Estimated battery life is based on two open/close cycles per day. High environmental temperatures and shades taller than 60 in. (1524 mm) can reduce the battery life.

This product may be purchased from select authorized Crestron dealers and distributors. To find a dealer or distributor, please contact the Crestron sales representative for your area. A list of sales representatives is available online at [www.crestron.com/How-To-Buy/Find-a-Representative](#) or by calling 855-263-8754.

This product is covered under the Crestron standard limited warranty. Refer to [www.crestron.com/warranty](#) for full details.
