

TSR-310-DS

Table Dock for TSR-310 Installation Guide

Description

The Crestron® TSR-310-DS table dock provides a charging solution for a single Crestron TSR-310 handheld touch screen remote (not included). One table dock is included with each TSR-310, and additional docks may be purchased separately to accommodate multiple docking locations.

Additional Resources

Visit the product page on the Crestron website (www.crestron.com) for additional information and the latest firmware updates. Instructional videos showing various installation procedures for the TSR-310 and its accessories may also be viewed. Use a QR reader application on your mobile device to scan the QR images, or click the QR images to load the web pages.

Overview

The TSR-310-DS may be placed on any flat, level surface, such as a table or counter top. Refer to the following illustrations for product dimensions.

NOTE: When the TSR-310 is docked in the TSR-310-DS, the combined height of the remote and the table dock is 9.00 in (229 mm).

Operation

To use the TSR-310-DS with a TSR-310 remote:

1. Place the TSR-310-DS on a flat, level surface.
2. Apply power to the TSR-310-DS with the included power supply.
3. Place the TSR-310 into the dock as shown in the illustration below.

Place TSR-310 into dock.

As of the date of manufacture, the product has been tested and found to comply with specifications for CE marking.

Federal Communications Commission (FCC) Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada (IC) Compliance Statement
