

Sales Presentation Kit: CT/LC-SPK

CRESTRON
HOME

This Crestron Home™ Sales Presentation Kit is a portable sales tool that enables the user to demonstrate the functionality of the primary user interfaces found in a Crestron Home system. The kit contains four wired control panels (CN-WP12F, CN-WP12N, CNWM-LU12, and CNWM-LT9), two compact (3.8") touchpanels (CT-1000 with standard bezel/labeled buttons and LC-1000 with custom bezel/buttons without labels), and a number of sample finishes for the Series 1000 custom bezels. Refer to the illustration below for the layout of the kit contents.

All these interfaces are mounted within a single plastic carry case (14"L x 18"W x 4.5"H). Simply open the case, plug the power cord into a grounded outlet, and begin using the interfaces. A program has been preloaded into the kit for the user's convenience. The kit also contains a programming cable if the user decides to replace the preloaded program. Consult a customer service representative if unsure on how to program the kit.

Further Inquiries

If after reviewing this sheet for the Sales Presentation Kit, you cannot locate specific information or have questions, please take advantage of Crestron's award winning customer service team by calling:

- In the US and Canada, call Crestron's corporate headquarters at 1-888-CRESTRON [1-888-273-7876] or 1-201-767-3400.
- In Europe, call Crestron International at +32-15-50-99-50.
- In Asia, call Crestron Asia at +852-2341-2016.
- In Latin America, call Crestron Latin America at +525-260-4336.

For local support from exclusive Crestron factory-trained personnel call:

- In Australia, call Soundcorp at +613-9488-1555.
- In New Zealand, call Amber Technologies at +649-410-8382.
