

Rack Mount Kit: RMK-5000

The RMK-5000 is a complete rack mount kit that has been developed for the Crestron TPS-5000LB, TPS-5000LW, TPS-4500LB, and TPS-4500LW touchpanel models. Use the supplied hardware to assemble the rack mount kit to the touchpanel.

Supplied Hardware

The RMK-5000 consists of two items with differing quantities. These items along with the touchpanel produce an assembly that can be attached to a rack. Rack-mounting hardware is not supplied.

| ITEM | PART NUMBER | QUANTITY |
|------------------|------------------|----------|
| Rack Mount Plate | 17502 | 1 |
| Screw, Pan Phil | #6-32 x 0.25" LG | 8 |

Assembly View

Assembly of the RMK-5000 with the touchpanel is illustrated below (TPS-5000L is shown in the illustration). The RMK-5000 is designed to occupy seven rack spaces, 12.22 inches (31.04 cm). The only difference between the two sides of the rack plate is that a barcode appears on one side. The barcode side should be hidden from view once installed in a rack. Attach the rack plate to the rack with rack-mounting hardware. Use caution when handling the touchpanel as not to damage or scratch the view screen. Place the touchpanel (without cover) in the rack plate opening and secure with the supplied screws. Crestron recommends the use of a #2 Phillips head screwdriver to secure these eight screws with a torque of 11 in-lbs (1.243 N*m). Align the cover guide pins with the holes in the touchpanel and insert the cover over the touchpanel.
