

CSS-DESIGNER-MANUAL

Crestron® Designer Cassette Manual Shades

Self-contained, chain-operated shade suitable for inside and outside mounts

Choice of fabric-wrapped and non-fabric-wrapped cassettes

Stylish end caps add decorative edges to cassettes in outside mounts

NOTE: “CSS-DESIGNER-MANUAL” is sold as part of a custom-configured product and orders are placed via the Crestron® Design Tool for Crestron Shading Solutions. This specifications page is for informational purposes and shows the available parts of a Designer Cassette Manual Shade. To configure shades or order shading parts and accessories, please use the Crestron Design Tool for Crestron Shading Solutions or call 1-855-53-S-H-A-D-E (537-4233) for support.

A Designer Cassette Manual Shade from Crestron® is a self-contained, decorative mounting system that is shipped pre-assembled with the roller shade already inside. Simply attach the cassette's mounting clips to the wall or ceiling and snap the cassette into place. For easy use, the roller shade inside the Designer Cassette is chain-operated.

The Designer Cassette Manual Shade can be mounted on either the inside or outside of the window. If decorative end caps are desired for an outside mount application, the end caps can be attached to the cassette on site. The metal cassette is painted in the following colors offered by Crestron: white, ivory, clear anodized, black or bronze. Designer Cassette shades cannot be coupled.

Fabric-Wrapped Cassette

A fabric-wrapped cassette is a stylish, coordinated design feature which helps a surface mounted shade blend in with the room's environment. The same fabric as the shade can be requested for the cassette. The cassette is also available without a fabric wrap, with the painted finish shown instead.

Mounting Clips

Designer Cassette mounting clips are suitable for both inside and outside mount applications and can be mounted to the ceiling or the wall⁽¹⁾. For an inside mount installation, leave approximately 1/8 of an inch (3 mm) space behind the mounting clips. This space allows the clips to flex during the installation and removal of the roller shade assembly.

End Caps

Optional end caps are shipped with each Designer Cassette and provide a finished look to the system during outside mounts. The end caps are mounted with superior double

sided tape so it is important to make sure they are aligned before adhering them in place, as the bond is strong and are not movable after application.

Chain & Chain Tension Device

The chain that operates the shade comes standard in a stainless steel finish. A chain tension device (or “chain guide”) ensures the chain is kept in place and does not interfere with shade operation. It secures to the wall, window frame, or floor to remove slack from the chain. Setting upper and lower limits of the shade is done with stop balls, which are installed onto the chain.

Crestron Shading Solutions Safety Information

Crestron's manual shades are sold with a chain tension device connected to the shade's looped operating chain. If the chain tension device is not attached to the wall or floor, the shade will not function properly.

A chain tension device reduces the risk of a young child becoming entangled in the operating chain. This device should be used with all looped operating chains on window shades in any environment in which children are or may be present.

SPECIFICATIONS

ITEM	HEIGHT	WIDTH	LENGTH	FINISH
Designer Cassette Mounting Clip	2 3/8" (61 mm)	2 9/16" (66 mm)	2" (51 mm)	Metal ; White, Ivory, Clear Anodized, Black, Bronze

CSS-DESIGNER-MANUAL Crestron® Designer Cassette Manual Shades

Crestron is committed to providing customers with products of the highest quality and workmanship. Safety is important to us, and we are proud to say that safety issues are rare. We will continue to work with organizations such as the Window Covering Safety Council to identify areas where products can benefit from enhanced safety features.

The Window Covering Safety Council (WCSC) and the U.S. Consumer Product Safety Commission (CPSC) are recommending that only cordless window coverings or those with inaccessible cords be used in homes with young children.

Important Safety Guidelines can be found at www.windowcoverings.org

AVAILABLE MODELS

CSA-BKT-MNT-CLIP-CASSETTE: Designer Cassette Mounting Clips, 2

Notes:

1. The number of mounting clips required to hold the Designer Cassette shade in place depends on the shade width. Smaller shades can require just two, while larger shades may require up to six. The amount of mounting clips provided is handled automatically when a Designer Cassette Manual Shade is ordered through the Crestron Design Tool for Crestron Shading Solutions.
