- > Signal extender provides a single CAT5e connection between table and display
- > 3-Year and 5-year SLA purchasing options
- > World-class service and support

Provide a simple, scalable, and consistent user experience

Crestron® Workplace Technology Solutions come ready-to-deploy and include everything you need to provide a consistent presentation, collaboration, and conferencing experience for all your meeting spaces. Every kit features Crestron **AirMedia®** wireless presentation capability and provides each room with the same on-display welcome screen and touch screen UI. All Crestron Workplace Technology Solutions are built on the same platform with enterprise-grade network management and security, so every space can be monitored, managed, and controlled securely from a single dashboard.^[1]

Large meeting room solution featuring Crestron Mercury®

The CE-2000 kit features Crestron's groundbreaking conferencing system — **Crestron Mercury**. More than just a tabletop speakerphone, Crestron Mercury is the core of any modern meeting space. You get everything you need to call, present, and video conference using any service. Crestron Mercury doesn't lock you into one proprietary platform. Plus, the audio performance is engineered to the highest standards, and **XiO Cloud** provisioning makes it easier to deploy and manage across thousands of rooms.^[1]

What's included:

- Crestron Mercury tabletop conference system
- HD conferencing camera
- Single-cable display extender
- Cables and IR emitter
- World-class service and support

Purchasing options

Crestron makes it easy for organizations to implement Workplace Technology Solutions with purchasing options that work with both capital

expenditure (CAPEX) and operating expenditure (OPEX) budgeting cycles. In addition to a one-time “buy now” option, Crestron offers 3-Year and 5-Year SLA pricing options, which allow customers to spread the cost of their technology investment over a 3 or 5 year period.
