

AIRMEDIA® CONNECT ADAPTOR

Bring plug-and-play wireless presentation and conferencing to your BYOD spaces

In today's hybrid work world, you need the ability to host meetings from anywhere and accommodate in-room and remote participants. Or a combination of the two.

Now, there's an incredibly simple way to do that.

- Easily transform any space into a collaboration space
- Wirelessly present, share, and conference from any device
- One USB-C connection, one button-press to launch your meeting
- Simplified guest participation
- Manage digital signage content from one location
- Easy to deploy and manage

Plug-and-play BYOD

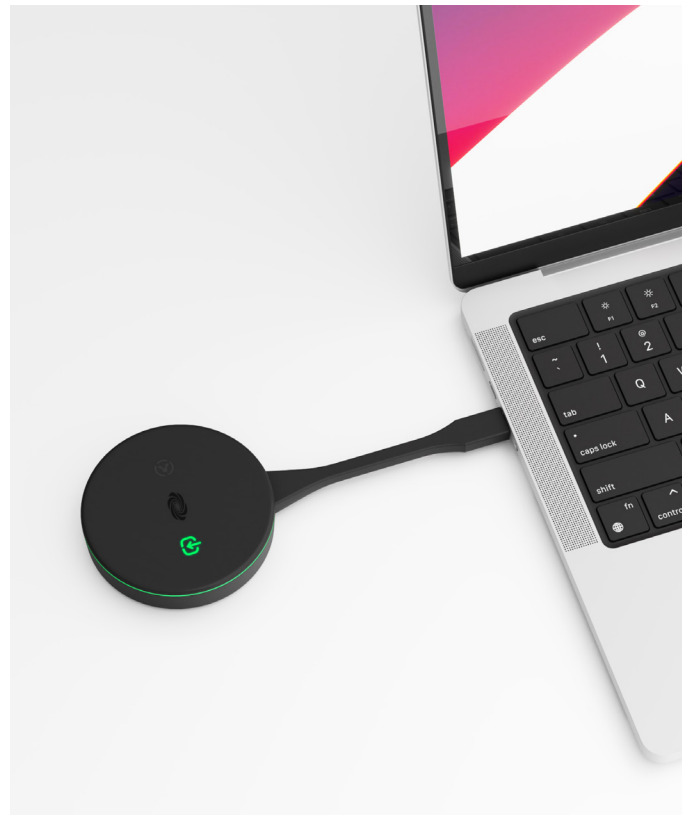

With the new [AirMedia® Connect Adaptor \(AM-TX3-100\)](#) you can transform any space into a BYOD collaboration space. Wirelessly present, share content, and conference from any device. Just a single USB-C® connection and one button-press to launch your meeting. No drivers to download. No applications to run. No wasted time.

Connect guests with ease

The AirMedia Connect Adaptor allows you to set up a secure guest network so external participants don't need to access your corporate network. Nothing to install means any guest, regardless of their own corporate requirements, can easily use AirMedia to connect, present, and host a meeting.

Easily connect to peripherals

With the AirMedia Connect Adaptor, there's no need to search for the right peripheral or manually connect your device to the room's conferencing system. Once you have your USB-C connection, you can control your room's peripherals.

Ensure everyone gets the message — everywhere

Manage all your organizational messaging from one location. Push event information, HR notifications, and corporate communications to any display anywhere. Pair the AirMedia Connect Adaptor with the services of our integrated software partners to easily expand the effectiveness of your internal communications.

Deploy, manage, and upgrade easily and efficiently

As with all Crestron devices, you can remotely provision and manage the AirMedia Connect Adaptor using the XiO Cloud® technology operations management platform.

A more complete BYOD solution

Like all AirMedia technology, the AM-TX3-100 integrates with Crestron essential room technologies to create a more robust, intelligent experience: in-room branding, occupancy sensors to wake the room up, touch screens to manage schedules and content, and Crestron DigitalMedia™ technology to enable wired presentation and content distribution. All of this without the hassle of extensive programming in each room.

Shipping now!

The AirMedia Connect Adaptor is shipping now with presentation capabilities. Wireless conferencing is available now via a free firmware upgrade.
