

## Engravable Button Caps for FlipTops™ Boxes with Keypads

FT-BTN button caps provide custom laser text engraving for the keypad buttons of a Crestron® FlipTop™ Control Center or QuickMedia® FlipTop Center. They are available in two sizes and configurations:

- The FT-BTNB-L is a single large button cap that simply replaces any of the ten standard buttons on a FlipTop keypad.
- The FT-BTNB-S provides two small buttons in the space of any single large button.

All FT-BTN button caps are black with white engraving. Crestron Engraver software makes it easy to configure a complete FlipTop keypad with custom engraving and order all the needed FT-BTN button caps.
