

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

The Crestron HomeTime video conferencing system ([HT-CAM](#)) supports at-home Zoom Rooms™ meetings. The HT-CAM can function as a standalone system, or it can be integrated into an existing Crestron® control system with or without DM NVX® technology.

The Crestron HomeTime add-a-room upgrade ([HT-CAM-AUX](#)) provides the necessary devices for multi-room video conferencing. The upgrade must be used in a Crestron HomeTime system (HT-CAM) that utilizes DM NVX technology.

Minimum Requirements:

Standalone System

- A video display, connected to the UC-ENGINE-SD-Z
- A Zoom Rooms™ software account or activation code
- Tablet device with the Zoom Rooms controller app installed

NOTE: For compatible tablet devices, refer to Zoom Rooms Controller Requirements at [System Requirements for Zoom Rooms](#).

Integrated System

- Existing Crestron control system installation
- Control device such as a TSR- series remote, TSW- series touchpanel, or mobile device running either the custom user interface provided or another compatible custom user interface

Integrated System with DM NVX technology

- Existing Crestron control system installation that utilizes DM NVX with a DM-NVX-350 or DM-NVX-351 to connect to the UC Engine
- A second video display
- Control device such as a TSR- series remote, TSW- series touchpanel, or mobile device running either the custom user interface provided or another compatible custom user interface

In the Box

- 1 HT-CAM, Crestron HomeTime™ Video Conferencing System for Zoom Rooms™ Software
- or
- 1 HT-CAM-AUX, Crestron HomeTime™ Video Conferencing System Add-a-Room Upgrade

LOGI-960-001101, USB Camera (HT-CAM and HT-CAM-AUX)

- 1 Logitech® MeetUp Conferencing Camera (6511549)

UC-BRKT-100-SD-Z-ASSY, UC Engine Bracket Assembly (HT-CAM Only)

- 1 UC-BRKT-100-SD-Z-ASSY (6511147)
- 1 Power cord, 6 ft (1.8 m) (2053985)
- Mounting Hardware

Accessories (HT-CAM Only)

- 1 CBL-CAT5E-7, CAT5e cable, RJ-45-to-RJ-45, Black, 7 ft (2.1 m) (6509924)
- 1 CBL-USBC-HD-9, USB 3.0 to HDMI® Converter cable, 9 ft (2.7 m) (6510718)

DM-NVX-350, Network AV Encoder/Decoder (HT-CAM-AUX Only)

- 1 DM-NVX-350 (6508251)
- 1 Power Pack, 24 VDC, 2.5 A, 100-240 VAC (2045873)
- 1 Power Cord, 5 ft 10 in. (1.78 m) (2042043)
- 1 Connector, 4-Pin (2003576)
- 2 Connector, 5-Pin (2003577)

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

Mounting

Mount the Bracket Assembly

To mount the bracket assembly, refer to the [UC-BRKT-100-SD-Z-ASSY Quick Start](#) (Doc. 8527).

Mount the DM-NVX-350

To mount the DM-NVX-350, refer to the [DM-NVX-350 Quick Start](#) (Doc. 8391).

Connect

1. Remove the connector covers prior to making UC-ENGINE-SD-Z connections on the UC-BRKT-100-SD-Z-ASSY bracket assembly.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

2. Connect the UC-BRKT-100-SD-Z-ASSY bracket assembly, LOGI-960-001101 USB camera, and display based on the system types shown below.

NOTE: In router based control systems such as the CP3N or PRO3, ensure all system devices are connected to the LAN and not the control subnet.

- **Integrated and Standalone HT-CAM Systems:** When the HT-CAM is connected to a control system, connect the devices as shown below. When the HT-CAM is not connected to a control system, make LAN connections directly from the UC-ENGINE-SD-Z to the home's network.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

- **Integrated HT-CAM System with DM NVX:** When the HT-CAM is connected to a control system that utilizes DM NVX technology, connect the devices as shown below.

a. Make network, HDMI, and USB connections as shown below.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

b. Make HT-CAM and HT-CAM-AUX connections as shown below. If an HT-CAM-AUX is not used, only make the connections specified for the HT-CAM.

NOTE: When using the HT-CAM-AUX upgrade, only one display in the HT-CAM system can be used to video conference at a time.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

3. Connect control peripherals such as TSW- series touch screen, a TSR- series remote, a mobile device, or a tablet (none included) as shown below. In a standalone system, only a tablet running the Zoom Rooms controller app can be used as a control peripheral.

NOTE: Only TSR- series remotes and iPhone® mobile devices are supported with the Crestron provided module. Other control peripherals, such as a TSW- series touch screen, will require a custom built module. Tablet devices can use the Zoom Rooms controller app.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

4. Bundle the cables with the integrated cable tie wraps. The cable tie wraps are reusable.

Complete the Installation

After completing UC-ENGINE-SD-Z connections, secure the connector covers using a #1 Phillips head screwdriver to replace the screws.

NOTE: For additional security, replace the screws with the spanner screws included with the bracket assembly. A 1/4 in. bit is also supplied with the bracket assembly to install the spanner screws.

Crestron HomeTime™ Video Conference System for Zoom Rooms™ Software

Configure

Apply Power

Press the power button on the UC-ENGINE-SD-Z and apply power to all of the other devices in the system.

Configuring the System

For system configuration, refer to the [Crestron HomeTime™ Video Conferencing System Product Manual](#) (Doc. 8760).
