

## CCS-MIC-USB-100

### Table Microphone for Crestron RL® 2 Installation Guide

#### Description

The CCS-MIC-USB-100 is an accessory for the Crestron RL® 2 Group Collaboration System for Skype® for Business. Placed on a videoconference room table, this low-profile microphone provides enhanced pickup of every participant at the table.

#### Additional Resources

Visit the product page on the Crestron website ([www.crestron.com](http://www.crestron.com)) for additional information and the latest firmware updates. Use a QR reader application on your mobile device to scan the QR image.

#### Installation

##### Hardware Hookup

1. Plug the supplied 15 ft (5 m) USB 2.0 A male to mini-B 5-pin male cable into the rear of the CCS-MIC-USB-100.
2. Plug the cable into an available USB port on the Crestron RL system codec.

**NOTE:** Up to 330 ft (110 m) of additional extension is possible using Crestron USB-EXT-DM local and remote extenders and CAT5e or better cable, all sold separately.

##### Position the Microphone

For optimal performance, refer to the polar pattern diagram below when placing the microphone on the conference table.

5 dB steps @1 kHz

As of the date of manufacture, the CCS-MIC-USB-100 has been tested and found to comply with specifications for CE marking.

#### **Federal Communications Commission (FCC) Compliance Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

**CAUTION:** Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

#### **Industry Canada (IC) Compliance Statement**
