TSW-770/1070-MUMK-PNLCVR

TSW-70 Series MUMK Panel Cover

The Crestron® TSW-770/1070-MUMK-PNLCVR is a replacement panel cover that allows a TSW-770, TSW-1070, TSS-770, or TSS-1070 series touch screen to be retrofitted into an existing TSW-60 series MUMK installation. The TSW-770/1070-MUMK-PNLCVR installs in place of the existing TS-7/10-MUMK panel cover, providing a simple and cost-effective retrofitting solution.

In the Box

1	TSW-770/1070-MUMK-PNLCVR, MUMK Panel Cover

TSW-770-1070-MUMK-PNLCVR-B Only

1	Panel Cover, TSW-70 Series, Black (2055338)

TSW-770-1070-MUMK-PNLCVR-W Only

1	Panel Cover, TSW-70 Series, White (2055337)

Install the Panel Cover

The following procedures describe how to replace the existing TS-7/10-MUMK panel cover with the TSW-770/1070-MUMK-PNLCVR.

If installing a TSW-770-LB or TSW-1070-LB light bar with the mullion mount kit, refer also to the TSW-770-LB and TSW-1070-LB Quick Start (Doc. 8553).

NOTE: The following procedures are applicable to both side mount and front mount configurations unless specified otherwise.
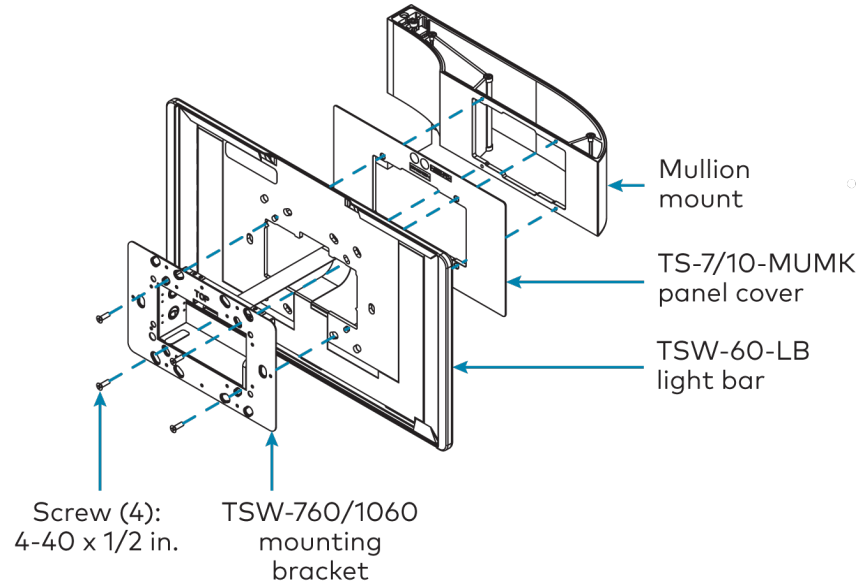

Remove the TS-7/10-MUMK Panel Cover

1. Pull the TSW-60 series touch screen carefully out of its mounting bracket and disconnect any cables.

   NOTE: If the touch screen is secured to the mounting bracket with a security latch, refer to the removal procedure described in the TSW-560, TSW-760, and TSW-1060 Quick Start (Doc. 7926).
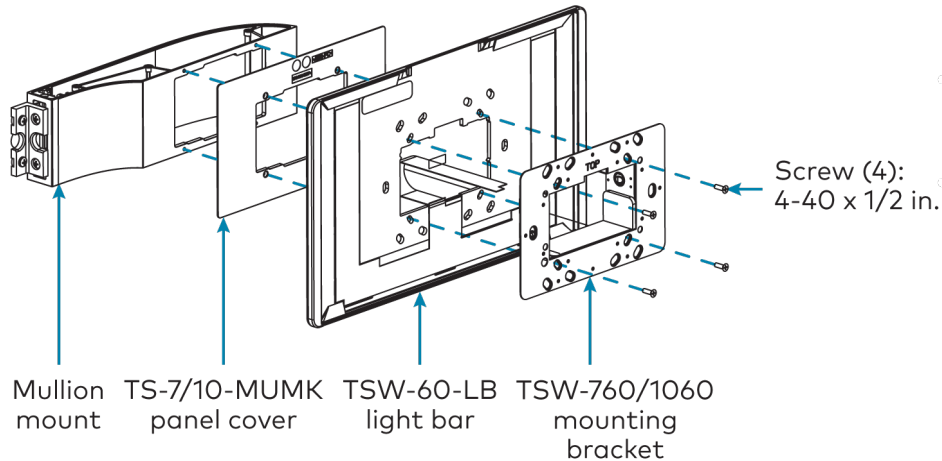

2. Remove the TSW-760/1060 mounting bracket, TSW-60-LB series light bar (if using), and TS-7/10-MUMK panel cover by unscrewing the four 4-40 x 1/2 in. screws that hold them in place.

Screw (4): 4-40 x 1/2 in.

Attach the TSW-770/1070-MUMK-PNLCVR

Align the TSW-770/TSW-1070 mounting bracket (included with the touch screen) with the TSW-770/1070-MUMK-PNLCVR as shown in the following illustrations, and then secure both to the mullion mount with the four 4-40 x 1/2 in. screws removed in the prior section.

TSW-70 Series MUMK Panel Cover

If a TSW-70-LB series light bar will be used in this installation, use the four 4-40 x 3/4 in. screws provided with the touch screen instead of the 4-40 x 1/2 in. screws. The light bar should be placed in between the TSW-770/1070 mounting bracket and the panel cover as shown in the following illustrations.

Attach the Touch Screen

1. Connect all cables to the rear of the TSW-70 series touch screen.
2. Push the touch screen gently into the mounting bracket until the rear of the touch screen snaps into place inside the mounting bracket.
3. If a TSW-770-LB or TSW-1070-LB light bar was installed with the MUMK, ensure that the light bar flex circuit did not pop one of the cover plates off of the mullion mount. If this has occurred, tuck the flex circuit back into the mullion mount and then reinstall the cover plate. For more information, refer to the TS-7/10-MUMK Quick Start (Doc. 8455).
