Power Outlet Module: FTA-PWR-222

The Crestron® FTA-PWR-222 Dual International AC Power Outlet Module is designed to provide two ac power outlets within a 600 Series FlipTop™ connection compartment.

Each outlet on the FTA-PWR-222 is rated for 10 amps at 220-240 Vac, 50/60 Hz.
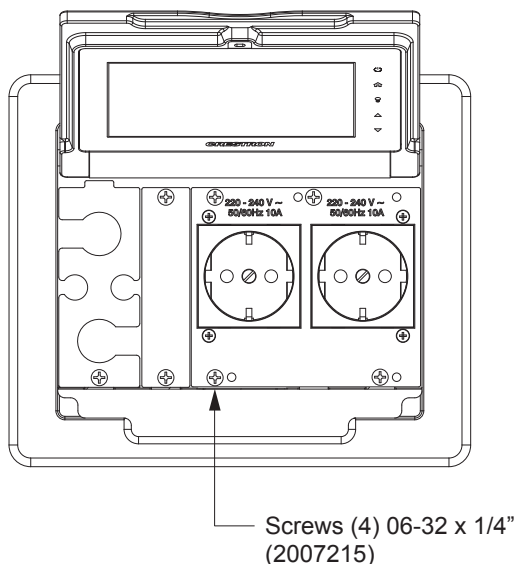

Supplied Hardware for the FTA-PWR-222

DESCRIPTION	PART NUMBER	QUANTITY
Screw, 06-32 x 1/4", Steel, Pan, Phil	2007215	4

The FTA-PWR-222 occupies three connector plate slots and one cable pass-through slot in a 600 Series FlipTop. Use the following procedure to install the FTA-PWR-222.

1. Remove the screws securing a group of three adjacent, blank connector plates and the screw securing the nearest cable pass-through plate.

2. Remove the three blank connector plates and the cable pass-through plate.

3. Place the FTA-PWR-222 in position and secure it with four of the seven 06-32 x 1/4" screws from step 1. For convenience, the FTA-PWR-222 ships with four replacement screws and a card containing four circular stickers that can be used to cover the unused mounting holes.

Future Updates

As Crestron improves functions, adds new features, and extends the capabilities of the FTA-PWR-222, additional information may be made available as manual updates. These updates are solely electronic and serve as intermediary supplements prior to the release of a complete technical documentation revision.

Check the Crestron website periodically for manual update availability and its relevance. Updates are identified as an "Addendum" in the Download column.

Regulatory Compliance

As of the date of manufacture, the FTA-PWR-222 has been tested and found to comply with specifications for CE marking.
