Sonos® PLAYBAR Home Theater Soundbar & Streaming Music Speaker, Black

- *Two-in-one: Adds full-theater sound for your TV and streams music too*
- *Simple two-cord setup: One for power and one TOSLINK optical cable for your TV*
- *Works with your existing TV remote*
- *Syncs wirelessly with a Sonos® SUB and two ONE SLs for 5.1 surround sound*
- *Works lying flat or wall-mounted*
- *Streams over Wi-Fi®, not Bluetooth®, so the music never stops—even if you get a phone call*
- *Easy integration with Crestron 3-Series® control systems and Crestron Home™ systems*

Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

PLAYBAR delivers cinematic sound for all your movies, TV shows, sports, and games—and wirelessly streams your favorite music too. With nine amplified speaker drivers—six midrange and three tweeters—PLAYBAR replaces your TV's built-in speakers with deep, rumbling lows, crystal-clear dialog, and immersive waves of sound.

When the soundbar is first connected, using the Sonos app for iOS® or Android® offers the option to sync with your TV's remote, so the remote controls the soundbar directly.

For complete details on PLAYBAR and other Sonos products, please visit <http://www.sonos.com>.
