

Statement of Memory Volatility for DIN-AP, DIN-AP3MEX

Volatile and non-volatile memory information/configuration:

Type of Memory	Size of Memory	Purpose of this Memory	Data retention after power off Note 1	User data Note 2	How is data input to this memory?	How is memory protected from accidental overwrite by the user? (e.g. Password, Jumpers, Switch settings, Software) - Enter N/P if it can't be write protected.
1.SD CARD Internal	4 Giga Bytes	Firmware	Yes	No	Special software required	N/P
2.SD CARD External	32 Giga Bytes	Firmware	Yes	No	Special software required	N/P
3.SDRAM	256 Mega Bytes	Temporary Storage	No	No	Special software required	
4.< >	kilo <>	< >	<>	<>	< >	

Note 1: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet retain after power down?

Note 2: Can user data, i.e. Audio or Video, documents (Word, pdf etc.) or spreadsheet be written to this memory during normal operation? User settings and operational parameters such as volume setting, IP address etc. are not considered User data on this declaration. Only Audio, Video, documents (Word, pdf etc.) or spreadsheet is considered user data.
