

CBF-FP-ASCENT

Ascent® Solid Metal Faceplates for Cameo® Keypads, Flush Mount

- > Solid metal designer faceplates for Cameo® keypads^{1,2}
- > Choice of 7 luxurious colors and finishes
- > Mix and match with any color buttons³
- > One-piece bezel completely surrounds the buttons and LEDs
- > Multiple cutout designs afford new versatile button configurations
- > Provides an exceptional fit and finish
- > Easy to install for new or retrofit applications

Ascent® faceplates bring a contemporary architectural style to the Crestron® Cameo® line of keypads¹. Each Ascent faceplate is precisely machined from a solid billet of aluminum and finely finished for a luxurious appearance. Ideal for both new and existing installations², Ascent faceplates are offered in a tasteful selection of designer finishes, each formulated to meet the demands of the most discerning interior decorator, executive, or home owner.

Finish options include a variety of colors and textures to suit any commercial or residential décor. Elegantly plated in 24k gold or lustrous nickel, our Polished Gold and Polished Nickel finishes are easily at home in the most opulent of spaces. The Satin Nickel finish furnishes a more industrial look befitting a high-tech boardroom or contemporary kitchen, while our Anodized Silver, Brass, Gray, and Black finishes each lend an eye-pleasing accent of brushed alloy to any modern or traditional interior.

Four different button cutout designs are offered, expanding the possibilities for creating custom button configurations using combinations of small, medium, large, and split buttons. The basic design supports full configurations with up to eight buttons, while the “3BTN” design allows just one, two, or three buttons in a condensed space. The “3/2BTN” and “4/1BTN” designs each feature a sectional layout, allowing up to four buttons in the top section with up to two regular or split buttons on the bottom.

Each CBF-FP-ASCENT model is composed of a solid metal bezel that simply installs in place of the plastic bezel that comes on each Cameo keypad. The CBF-FP-ASCENT models are designed for use with Flush Mount Cameo keypads^{1,2}. For Standard Mount versions, please see model [CBD-FP-ASCENT](#).
