

Adagio[®] Label Strip Installation

Congratulations on purchasing your custom-engraved label strip from Crestron[®]. Prior to installing your new label strip, you must first remove the label strip that is included from the factory. The only tool required is a small flat-edged screwdriver approximately 1/8" to 1/4" wide (or other flat-bladed tool).

Removing the Old Label Strip

1. Remove the blank label with a small, flat-head screwdriver. The blank label is magnetically attached to the front panel of the Adagio[®] component. The label strip will be exposed.
2. Insert the screwdriver behind the label strip as shown in the diagram below.

3. Continue sliding the screwdriver behind the label strip until the top of the label strip slides out as shown below.

4. Continue sliding the screwdriver until the entire top of the label strip is visible. Remove the label strip by pulling the top of the label strip up from the Adagio component as shown below.

5. Repeat steps 1 through 4 for any other label strips.

Installing the Engraved Label Cover

1. Place the engraved label over the label area of the Adagio component until the label strip's integrated magnets snap the label cover into place.

NOTE: Observe proper orientation so the letters are right-side up.

Further Inquiries

If you cannot locate specific information or have questions after reviewing this sheet, please take advantage of Crestron's award winning customer service team by calling the Crestron corporate headquarters at 1-888-CRESTRON [1-888-273-7876]. For assistance in your local time zone, refer to the Crestron website (www.crestron.com) for a listing of Crestron worldwide offices.

You can also log onto the online help section of the Crestron website to ask questions about Crestron products. First-time users will need to establish a user account to fully benefit from all available features.
