

Manufacturer: Crestron
Model Number: DMC-4KZ-HDO
Description: DMC-4KZ-HDO: Output card, 2 HDMI with 2 balanced audio outputs and scaler
Technical Point of contact: Thomas Liambas
Title: Senior Project Engineer
Phone: (201) 750-7004 x12499
Email address: tliambas@crestron.com
Date (M/D/YYYY): 4/3/2019

Statement of Memory Volatility for 4KZ HDO CARD

Volatile and non-volatile memory information/configuration:

Type of Memory	Size of Memory	Purpose of this Memory	Data retention after power off Note 1	User data Note 2	How is data input to this memory?	How is memory protected from accidental overwrite by the user? (e.g. Password, Jumpers, Switch settings, Software) - Enter N/P if it can't be write protected.
1.OTHER --> SPI Flash (U19)	4 Mega Bits	Firmware For U13	Yes	No	Special software required	Software
2.SDRAM DDR3 (U72)	512 Mega Bytes	Temporary Storage	No	No	Special software required	Software
3.SDRAM DDR3 (U73)	512 Mega Bytes	Temporary Storage	No	No	Special software required	Software
4.OTHER --> SPI Flash (U42)	4 Mega Bits	Firmware	Yes	No	Special software required	Software
5.SDRAM DDR3 (U75)	512 Mega Bytes	Temporary Storage	No	No	Special software required	Software
6.SDRAM DDR3 (U78)	512 Mega Bytes	Temporary Storage	No	No	Special software required	Software
7.OTHER --> SPI Flash (U5)	1 Mega Bits	Boot Code For U21	Yes	No	Special software required	Software

(User is defined as end user who ultimately operates this device)

Note 1: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet be retained after power down?

Note 2: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet be written to this memory during normal operation? User settings and operational parameters such as volume setting, IP address etc. are not considered User data on this declaration. Only Audio, Video, documents (Word, pdf etc.) or spreadsheet is considered user data.
